OTTAWA TRANS

PUBLIER, PAR T.V. INC

Cher Lecteurs:
Merci a tous pour
vos encouragements
favorables au Nol de
la publication la
Jarretelle.

Si je semble bien comprendre ce petit iournal semble comble vos besoins, qui d'après moi sont nombreux. J'aimerais aussi vous partagez qu'il y'as aux moins deux cent travestis a Mtl. Et plus puisque le journal a su en rejoindre autant. Cependant je me sent quelque peut désemparé puisque très peut d'entrevous se sont abonne au journal, qui aurait l'effet de mieux gestionner finances du journal. Enfin voici que les efforts continue puisque vous avez en vos main le NO#2.

Tacher donc de comprendre que quand vous vous abonnez a ce journal vous rendez notre marge de profit plus élevé pulsceque; Quand vous l'achetez dans les magasins eut font 50% du profit. Croyez moi que 50% de \$5.00 moins les coûts d'imprimerie ceci nous laisse pas une grosse marge de profit et restreint

notre budget de façon precaire.

Alors les filles de L'Encouragement et du support de votre part on ne peut s'en passer. Car après tout n'oublier pas ce journal c'est votre journal. Ne nous laisser pas tomber.

he 44 adhvior 1991 Nous avons tenue

une réunion. Jugeant par le nombre d'appel que j'ai reçue par la Jarretelle je croyais qu'on serait au moins personnes. Mais hélas le temps qu'il fait sur notre pays un froid glacial a du décourager ces filles qui avaient l'intention d'être présente a cette réunion.

Nous fimes que huit mais comme on dit c'est pas la quantité qui conte.

Durant le déroulement de cette réunion j'ai exprime que J, interviendrais auprès d'un groupe dont je suis membre, LES HIRONDELLES DU FAUBOURG, pour LES approches et savoir si ce groupe consentirais a partager leur local avec TAM.

Leur réponse nous fut favorable. Cependant je tiens a exprimer clairement que une collecte sera prise a al fin de la réunion et ces argents ramasser seront donner groupe qui nous accueille, ceci dans le but de LES aider avec leurs coûts

or way to should be had been dear but LOYER, HYDRO ECT ...

et ce sera ainsi tant et aussi longtemps que TAM n'aura pas de coûts d'adhésion pour leurs membres.

A propos il fut suggerer que dans le futur TAM vas élire une conseil administratif et s'incorporer.

OTTAWA VISITE MONTREAL

THE REPORT OF THE PROPERTY OF THE PERSON NAMED IN COLUMN TWO PERSON NAMED IN COLUMN TO THE PERSO 24th our On Jan first meeting held though the weather bitterly cold may have been one of the reasons for which not many turned out as had promised or perhaps was it that the gay community not as centre was appealing as a point from which to hold our first meeting. However eight people did turn out and I a consider this start.

forth: First to find another meeting place. This has been accomplished. Since I am a member of the T.S. group Les Hirondelles du Faubourg" we have been granted permission to share their local advised that af after each and every meeting a collection will be taken up and given to T.S. group, so as to help them with financial cost towards rent hydro ect... and this will continue until such a time as TAM has established ' membership fees that would help pay the rent for a local on permeant basis. Though here it strongly recommended that T.V. and T.S. set aside their differences since there are so few of us it makes good financial sense to join hands and help each other out. I will serve as liaison T.S. for both T.V. & group. Please phone me at 528-8874 to find out when & were meetings take place. In time it is in agreement with all, that we form a board directors and incorporate the group we are still looking for a new name!

OTTAWA COMES TO MONTREAL

On February 9th 1991 the ottawa chapter `gender mosaic'came to town, they arrived on saturday and stayed at the Delta Hotel.

We met at the restaurant Tony du Sud a fine Italian restaurant with excellent food and good prices and service to match. We brought our own wine. Judging by the expression on people faces I would say all were very happy with this. We would especially like to thank the staff and management at TONY DU SUD for being so nice and to courteous us. So thanks Tony.

Afterwards we put on our dancing shoes for an evening at La Pyramide disco club.

Wishing to arrive before 11:00pm so as to take advantage of their 2 for 1 special and later on attending the female impersonation show. Finally closing time came

and with sadness the evening ended.
AU REVOIR OTTAWA.

I wish to thank all of you for your support and encouragement.

Did you know that the first after I can tell issue there are that over 200 T.V. in Montreal region probably more since we have only just begun. Still work more alot needs to be done. probably the two biggest task I see ahead are firstly gaining the trust the T.V. community not an easy task. small through steps this is i g n b accomplished.

Second is getting yourselves over the fears many of you have expressed me. Though to are these fears of many in some these fears are very realistic for various reasons are (those who live or married or with parents you because of work) believe you me I understand this. Still I wish to underline fear hidaest

of fear you have placed in your own

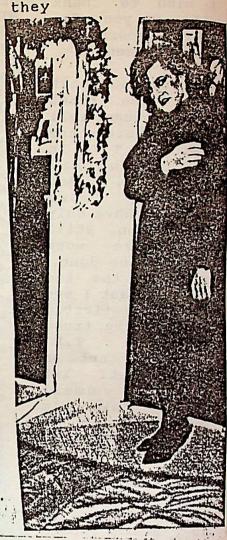

minds and this fear is unrealistic. It is a form of fear by which you delay gratification. Waste your life with desires and wants that are attainable becoming a passable woman who can actually go out in public is not just a dream it is a reality that you can achieve. there are ways to do this in a safe and healthy environment and that is why there is a support group.

I would also like to express my disappointment with the T.V. community not many have subscribed to a membership. This makes me wonder why! Some have pointed out to me that it is unclear whether the membership is for TAM or for the G.P. well it is for the G.P.! And if enough people became members this would give the G.P. an operation budget.

Also be aware when you store buy G.P.in the retain fifty percent of the profits with less than a 25% profit. When one considers the work that goes into such paper this is not encouraging nor is it conducive to a solidarity of the T.V. to community so come on girls wake-up! And make the G.P. a T.V. journal for T.V.Sby T.V.S for Montreal.

Remember what kirk said to Spock in Mirror mirror: "in every revolution there is one person with a vision, and I am that person with a vision, shared by many:.

Je mentionnais au début 10 travesti prostitué. mieux connu sous le nom de "Drao Queen". Il faut savoir que son but est tout à fait différent de celui la prostituée transexuelle. général, ce genre de travesti exploite les désirs homosexuels des clients måles qui refusent d'accepter 1eur homosexualité. Sous quise de faire 1'amour avec une femme, le client se sent plus à l'aise Dour réaliser son fantasme de faire l'amour à un homme, et ca le déculpabilise.

Le travesti prostitué s'habille en femme uniquement Dour attirer clientèle. Comme le personnificateur féminin, i1 ne s'habille en femme à la maison, ni quand il fait des visites sociales. C'est parce qu'il n'en retire aucun plaisir.

Queen" se sert du déguisement uniquement pour que sa clientèle soit à l'aise pour demander ses services. Mais pourquoi le nom "Drag Queen" ?

- 1) "Drag" se traduit bien par "la Main", une rue ou un endroit pour rencontrer des filles de joie.
- "Queen" est le mot qui a été imposé aux travestis qui se prostituent.

LATRANSSEXUELLE

Il y a des gens qui ne voient aucune différence entre travestis et transsexuels. Je ne prétend pas être une experte en transsexualité, mais croyez moi, il y en a une.

Les annonces des commercants qui sont publices dans ce journal, sont informés des sentiments qu'éprouvent les travestis quand ils font leurs achats. Vous pouvez avoir entièrement confiance en leur discrétion. Demeurez assuré de la qualité de leurs services et ils se feront un grand plaisir de vous servir. Alors, pas de gêne! Si vous connaissez des marchands qui seraient intéressés à nous supporter, encouragez-les à communiquer avec nous.

4051, HOCHELAGA-MONIRÉAL (QUÉBEC) HIW IK9 • 253-7197 He was a young lad, just fourteen, and had just begun to discover the things that excite young men - you know, the sexual first excitement that suddenly jumps out and grabs you by the halls one day. He had gloried at the sight of a tall. slender woman on the screen in the darkness of a movie theater one afternoon and felt the warm rush over as he watched her move seductively across the screen, her nylons glistening above tall high heels as she danced and her skirt swirled up her thighs higher and higher and he felt the throb between his legs beginning for the first time.

When he had gotten home, the place was empty as his parents were off for a weekend trip so he trudged around the house thinking of the girl in the movie. After a bit, he entered the bathroom and 7 urinated.

As he was about to zip up pants, he noticed that the tip of his penis was covered by a slick clear liquid film. Puzzled, he ran his finger over the fluid and marveled at its smooth consistency. At the same time, he noticed that his mother had left her panty girdle and nylons to dry on the bar next to the sink.

Curious, he picked up the girdle and examined it. It was made of pure amber molded latex, he saw as stretched it slightly explored a and bit further to see that the crotch small numerous numerous sma perforations in and that there were six metal garters hanging down inside the leg bands.

When he had satisfied his curiosity, he plucked one of the tawny nylons from the bar and felt its softh texture as he ran his fingers into the opening at the top and spread it

gently over his hand. His thoughts suddenly raced back to the girl in the movie that afternoon and how her shapely legs had glistened in the light. An idea suddenly hit him - he had to see what it felt like to wear them!

Quickly, he locked the bathroom door and tore off his shirt and then his shoes and pants, stripping until he was standing there revealed naked in front of the fulllength mirror on the back of the door. Shivering with excitement, he took the panty girdle and eased one foot into the waist and into leg hole and followed it with the second after sitting down on the toilet lid. The stretchy rubber was tight around his upper thigh as he began to tug the waist band upward, moving his ass from side to side to ease its progress. Finally it was in place with a little "pop" as he moved his fingers out of the tight waistband.

He took a small step and felt the rubber move with his body slightly, slipping up and down in a tight caress over his sensitive skin. It was very tight over his crotch and his fingers explored there to find his hardness reoccurring once again.

He took up one stocking and ran his toes into the top part. Then he paused and thought back to the time he had accidentally seen his visiting aunt putting her hose on. She had rolled them down first and started by fitting them over her toes and heel. He rolled the thin material down as she had and fitted the toes of one foot into place and carefully pulled the heel into place before rolling the stocking slowly up his leg. Soon it was in place and he experimented with the garter tabs several times before getting fastened. The second stocking soon followed the first.

time our mercel were to a the caress of the smooth nylons over the newly emerging first thin hairs of youth on his legs and wiggled his toes at the luxurious feeling it gave him as he turned toward the mirror and gazed at his now feminine "figure" for first time. He was shocked at the way his legs looked in the stockings and with blushed pleasure - they were nearly as nice as those of the girl in the movie, he decided.

Emboldened, he aran his fingers over the taut amber rubber encasing his ass cheeks and shivered at the sensations he was feeling. His fingers wandered down the curves of his hip and over the narrow band of bare skin between the nylon and the rubber. His crotch was throbbing with the new feeling and he paused, pulling open the tight waistband. He reached down inside it, grasped the pulsating tube, and his flat stomach and released it where the now warm, slick, rubber molded over it and caressed it as he allowed the waistband to constrict around and against his skin again.

Moving his legs together yielded more new sensations as the rubber now caressed the ful1 length of his hardness while it held his testicles up tight against his crotch in a tight fist-like grip and he felt the smooth caress of nylon against nylon as his legs met.

Suddenly time stood still and he felt suspended in mid-air as his eyes flew open and the bathroom seemed to spin about. His legs wobbled and then his knees buckled as he sank to them. Something new and wonderful was happening to him down inside the panty girdle's damp interior, and he pulled the rubber outward just as he started cumming for the first time. Beneath his eyes he white stream emerging from the tip of his cock. The first spurt arced upward sharply for at least two feet before splattering onto his chest and then more spurts followed in sharp succession, one after another.

It seemed like forever before the intense gut-wrenching spouting pleasure finally ended gradually but still he remained on his knees, his eyes closed as the spinning world began to slow down once more for him. After a minute or so, his eyes gradually opened and he looked at the mirror image before him, clad in nylons and the wondruous panty girdle. As the hot cum trickled down slowly over his bare chest, he was already thinking about how and where he was going to get a girdle and stockings and where he would hide them for future use.

His immediate problem, however, was to get the incredible mess he

himself and to get the panty girdle cleaned up. As he stood up, he felt a strange sensation as if something hairy was crawling up the backs of his legs and he saw the ladders that he had caused " in the nylons. As if he didn't have about all the trouble he could handle just then, the telephone started ringing. Unthinkingly, he unlocked the door and ran to the phone. It was a wrong-number. As he hung up, he heard the crunch of gravel in the driveway as a car pulled in and stopped. His heart was in his throat for a moment until the car reversed and left - someone was just turning around in the driveway.

All-in-all, it was agood intoduction to some of the typical problems that a young budding transvestite could expect to have for the rest of his life.

continued from december first time jitters

greeted by the sight of Julie Andrews doing obscene things with her umbrella.

Then, you hear her voice. It is calm, and soothing, with yust a touch of concerned impatience. You feel the weight leaving your shoulders. You sense the voices growing quiet, and fearful. Fearful, for you now remember the reasons why you committed yourself to going to Mardi Gras.

. You've realized that you cannot look at her as a seperate person. She is a part of you, and she has been alone. She has been alone when there's not a single reason why she should be alone. She's been alone only because of simple petty fears; fears which in your other life, have been conquered time and time again, but never for her. You've realized that if you don't fight them once more, there will be that part of you that will be condemed to dressing up to go nowhere, talking imaginary conversations with non-existent friends, practicing a dance which will stay just a reflection, drowning in a pool of stereotyped narcissism that has nothing to do with self-worth.

You've realized that it was time to get your butt out of the dugout, onto the playing field and to the starting line. You had warmed up enough. It was time to kickstart your heart, and get going.

It is now late in the evening. The dress is off and you've just completed taking off your makeup. You look at the mirror and you still see her reflection. She trys to appear unfazed by what's happened, but there is a playful, naughty sparkle to her eyes. In a whisper, she reminds you, "Nothing great happens without enthusiasm". Banzai indeed!

THE HILL

There was a boy who lived beside a hill. The boy knew a person who would be his friend. He never spoke to this person. Never once. He never showed this person to others. Never once. He knew he would lose his friends if he did. He feared this. He believed he could not be free unless he got rid of this person.

When the boy was grown he walked up to the other side of the hill, where that other person could not follow. He felt he could now live as he was taught to live. He won, but gained nothing. He lost, but grieved not. He received love, but could not trust it. He tried to cry, but no tears would come. He tried to laugh, but it was hollow. He was alive but could not live a lie.

He walked back down the hill from whence he came. He found that person was still there, walting for him. They spoke, and he became whole. He found Truth. He still did not know if he would find love or freedom. He knew though, that he could now try. As he turned to walk away, he looked back, and saw that a wondrous thing had happened. The hill had disappeared.
